Summary

Dedicated Web Developer Passionate about building dynamic and scalable web applications across both front-end and back-end. Proficient in modern technologies, committed to writing clean code, and always eager to learn and innovate.

Skills

- Programming Languages: JavaScript, SQL
- Frontend: HTML 5, CSS 3, JavaScript ES6
- Backend: Node.js, Express.js
- Other Tools :Git, GitHub

Education

Anna University-C. Abdul Hakeem College of Engineering & Technology   Sep 2021 - May 2025
B.E Computer Science and Engineering

- GPA:7.79

Projects

Supermarket Management System (Ongoing)

- Developing a full-stack inventory and sales management system using React.js, Node.js, Express.js, and MySQL to streamline supermarket operations.
- Implementing real-time stock updates and automated billing, reducing inventory discrepancies and improving transaction efficiency by 40%.
- Optimizing database queries and system performance, reducing response time and enhancing scalability for high-volume transactions.

Automatic Tollgate Opener Using Arduino   Github link

- Designed and implemented an IoT-based tollgate system using Arduino and ultrasonic sensors for automated vehicle detection and gate control.
- Developed and optimized C/C++ (Arduino IDE) code to automate toll operations, reducing manual intervention.
- Improved system efficiency and traffic flow by streamlining toll collection and gate automation.

Additional Informations

Languages:

- English- Professional Proficiency
- Tamil- Professional Proficiency
- Hindi- Professional Proficiency

Certifications:

- Neural Networks and Deep Learning - Guvi
- DevOps Essentials - Infosys Springboard
- Complete 2024 Web Deveoplment BootCamp (Ongoing) - Udemy
